opportunity to put your new analytics skills and business knowledge into a development project for an industry partner. This course is your chance to apply your learning in a real-world setting.

The Online MSBA program concludes with a capstone project course designed to integrate and consolidate your learning. Throughout the program, you will develop a strong foundation in quantitative techniques, including R and Python programming, Apache Hadoop and Spark, SQL, NoSQL, and predictive analytics. These skills are essential in today's data-driven world.

You will also hone your business analysis skills, including data-driven decision making, data mining, and data visualization. These skills are crucial for success in roles that require the interpretation and presentation of complex data.

In addition to technical skills, the Online MSBA program emphasizes soft skills such as communication, networking, and ethics. You will learn how to effectively communicate your findings and insights to stakeholders, develop your network through events and professional connections, and maintain ethical standards throughout your career.

The Online MSBA from Albers is structured around a program theme of data science, analytics, and ethics. This theme is reflected in all aspects of the program, from your coursework to the capstone project.

That Work For You

Networking Opportunities

Networking is a key component of the Online MSBA program. We provide opportunities to connect with peers and industry professionals through our quarterly career fairs, Albers Ethics Week events, our Executive Speaker Series, and Redhawk Landing, our career-driven social network. You will have the chance to make meaningful connections while you make the world a better place.

In-Person: Attend our events and connect with our student body and faculty. You can also meet with your Student Success Coordinator to discuss your career goals and receive personalized support.

Learn more about the online and in-person networking opportunities available to Online MSBA students, including community service events in the local area.

Meaningful connections are made between the real world and our programs. We understand that every Online MSBA student comes to us with unique experiences and goals. That's why we provide a one-on-one advising system that ensures you have access to the knowledge and support you need to succeed.

Our mission is to prepare you to thrive in tomorrow's workplace. We believe that data analytics is the future of business, and we are dedicated to providing you with the skills, knowledge, and values you need to succeed.

With your Student Success Coordinator's assistance, you will develop a personalized plan that takes into account your unique background, goals, and career aspirations. We support the greater Seattle area and beyond, and our faculty is committed to helping you reach your full potential.

The Online MSBA program at Seattle University is delivered online and on-site. With our carefully curated LMS, you can access course materials, participate in interactive discussion forums, and track your progress in real-time. You can learn on your own schedule and connect with your classmates and faculty through our online platform.

In our carefully curated LMS, you can:

- View dynamic video recaps of ongoing course topics
- Participate in interactive discussion forums
- Collaborate with your peers through chat, discussion, and video tools
- Read the latest research and industry news
- Download faculty-created videos and other course resources
- Track your academic progress with easy-to-read grade tracking
- Take a look at some of the standout companies that recognize the value MSBA graduates from Albers bring to their organizations:

- AT&T

Welcome to a transformative data-driven degree from Seattle University.
Admissions Requirements
• Complete and application form
• Bachelor’s degree with a GPA of 3.0 or higher (on a 4.0 scale)
• GMAT score of at least 550 or a comparable GRE score
• Official transcripts from all undergraduate and post-baccalaureate work
• Optional personal statement: Personal statements are not required, but they may be submitted if an applicant feels that additional information is needed to make an informed decision.
• Please note: International transcripts will require an agency evaluation before they can be entered into the application system.

Application Deadlines
• Early Decision (ED) is limited to a small number of students who demonstrate the highest potential for success in our program.
• Early Decision applications are due by November 1st.
• Regular Decision applications are due by March 1st.

Scholarship Opportunities
Financial aid is available in the form of merit scholarships and need-based aid. Students are encouraged to apply for both types of aid to maximize their eligibility.

Alumni Admissions Pathway
Alumni of Seattle University who meet the following criteria are eligible to apply for the Online MSBA program with only the following materials:
• Alumni who graduated from Seattle University with a GPA of 3.0 or higher (on a 4.0 scale)*
• Completed online application form

*Probational admission contingent upon completion of the program’s first 12 credits with a minimum GPA of 3.0

How to Apply
To learn more about what awaits on the path toward a rewarding career, your new analytic skill set and business acumen are closer than you think.

To get you started, check out our downloadable guide to tips for requesting tuition reimbursement from your employer, and learn to navigate this potentially difficult conversation with confidence.

1. Complete the online application.
2. Send official transcripts from all undergraduate and post-baccalaureate work.
3. GMAT/GRE scores, official transcripts, letters of recommendation, and English-language proficiency scores may be requested for international applicants.
